

THE QUATERNARY OF
GLEN AFFRIC AND KINTAIL

Field Guide

Edited by
R.M. Tipping

The Quaternary of Glen Affric & Kintail

Contents

| | |
|---|----|
| Contributors and Excursion Leaders | 3 |
| Preface, Acknowledgements and Information for the Meeting | 5 |
| Contents | 7 |
| | |
| Late Quaternary Landscape Evolution of Glen Affric and Kintail Richard Tipping, Althea Davies, Elspeth Reid & Eileen Tisdall .. | 9 |
| | |
| Day One: Upper Glen Affric | |
| | |
| Loch Coulavie: stratigraphic data on Holocene lake-level and proxy precipitation change <i>Eileen Tisdall</i> | 29 |
| | |
| Torran Beithe: Holocene history of a blanket peat landscape <i>Althea Davies</i> | 41 |
| | |
| Peat development in West Glen Affric <i>Richard Tipping, Eileen Tisdall & Althea Davies</i> | 49 |
| | |
| West Glen Affric: peat-stratigraphic data on Holocene climate change - humification patterns and the identification of a long-term temperature record <i>Eileen Tisdall</i> | 55 |
| | |
| The An Sornach Rock Slope Failure <i>David Jarman</i> | 63 |
| | |
| Carnach Mór and Camban: woodland history and land-use in alluvial settings <i>Althea Davies</i> | 75 |
| | |
| Delayed deglaciation from the Loch Lomond Readvance: radiocarbon dated sequences from West Glen Affric <i>Richard Tipping, Eileen Tisdall & Althea Davies</i> | 85 |
| | |
| Estimates of the age of small-scale recent slope failures in West Glen Affric <i>Nicola Ward & Richard Tipping</i> | 93 |

Day Two: East Glen Affric, Strathglass and Strathfarrar

| | |
|---|-----|
| Recent Woodland History in the Pinewoods of East Glen Affric <i>Heike Wolff & Richard Tipping</i> | 97 |
| Allt an Laghair, East Glen Affric: recent woodland history from pollen analysis <i>Helen Shaw & Richard Tipping</i> | 105 |
| The Strathglass Valley: Cannich to Struy <i>Justine Kemp</i> | 111 |
| Postglacial Rock Slope Failures and Slope Features in Glen Strathfarrar <i>David Jarman / Elspeth Reid</i> | 119 |

Day Three: Glen Shiel and Kintail

| | |
|---|-----|
| Holocene sea-level changes around Loch Duich and Loch Alsh, NW Highlands <i>Ian Shennan & Sarah Woodroffe</i> | 123 |
| Kintail Seismic Zone <i>Callum Firth, Ian Stewart & Judith Firth</i> | 135 |
| Morvich and Strath Croe: lowland vegetation change and land-use history <i>Althea Davies</i> | 141 |
| Beinn Fhada – the context for large-scale slope deformation <i>David Jarman</i> | 149 |
| Holocene alluvial fan and fluvial activity in upper Gleann Lichd, Kintail <i>Elspeth Reid, Mike Thomas & Richard Tipping</i> | 157 |
| The Glen Shiel Rock Slope Failure Cluster <i>David Jarman</i> | 165 |
| The Kinloch Hourn Fault, Inverness-shire <i>Callum Firth, Ian Stewart, Judith Firth & Derek Rust</i> | 185 |
| References | 197 |

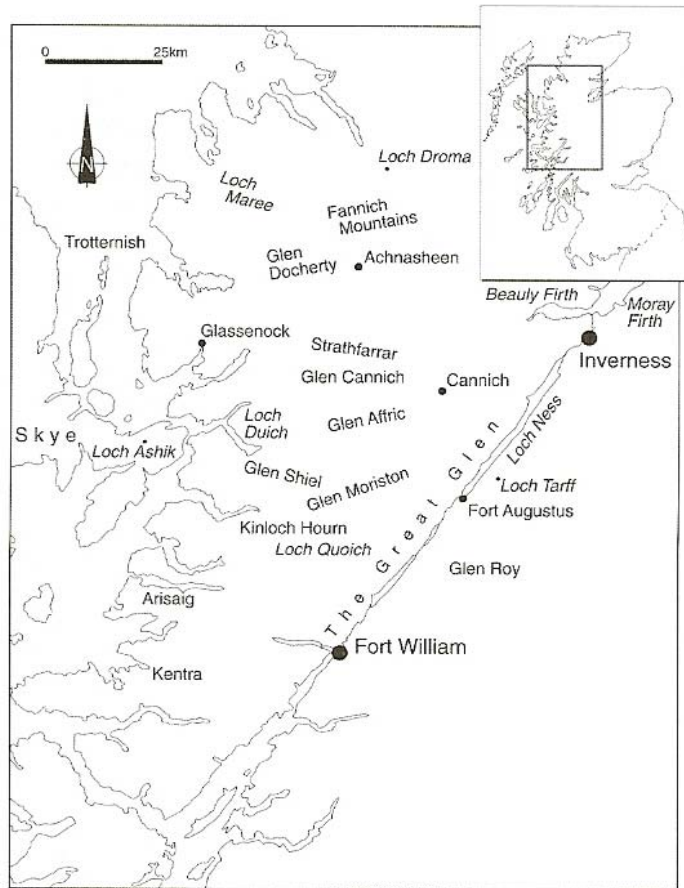

Fig. 1. The area of Glen Affric and Kintail in the NW Scottish Highlands, showing its location, relation to major towns and natural features, and key localities in the region outwith the study area.
